

# The Ixaris Card

A new type of virtual card for airline payments

Available as part of the Ixaris Payment platform's extensive portfolio of virtual card options, the Ixaris Card is powered by UATP and registered with the IATA TIP (Transparency in Payments) programme.

## Benefits for airlines and agents

**Significantly lower cost**  
The Ixaris Card eliminates intermediaries in the payment flow to drive significant payment processing cost savings for airlines.

**Guaranteed acceptance**  
Powered by UATP, the Ixaris Card offers agents guaranteed acceptance and eliminates surcharges, declines and Agent Debit Memos.

**Ultra-flexible incentives**  
With the Ixaris Card, airlines and travel agents can nurture sustainable relationships by negotiating flexible incentive terms based on routes, seasons, volumes and more. The sky's the limit.

**No integrations**  
Since the Ixaris Card is powered by UATP, airlines do not need to integrate or commit technology resources to accept this payment method.

**Faster settlement and rewards**  
With the Ixaris Card payment method, airlines receive faster settlements via daily bank transfers, while travel agents also benefit from faster receipt of incentives.

**Reporting and reconciliation**  
Agencies maintain the reporting and reconciliation efficiencies already offered by Ixaris Payments, while participating airlines receive an aggregated statement and a transactional statement on funds received, including PNRs for ease of reconciliation.
